Gangajal R.o. Systems

<https://www.domesticrosystem.com/>

We are manufacturers, traders and service provider of precision-engineered Water Filtration Systems.

About Us

Established in the year **2008**, **Gangajal R.O. Systems Pvt. Ltd.** is an industry leader at **manufacturing, trading, and service providing** a range of **Water Filtration Systems**. An ISO 9001:2008 certified firm, our Product Line includes **Water Purifier, RO System, and Water Dispenser**. Our offered products, catering to varied requirements of residences, offices, and industries, are precision-engineered using pristine raw materials and high-end technology in tandem with industry-set guidelines. We offer products that are appreciated for their durability, easy maintenance, and proper water flow. We've earned laurels for our expertise in the realm of wastewater treatment since we don't use any hazardous chemical to treat waste.

Our top-flight infrastructural and procurement units are sufficiently equipped to handle bulk orders. Our production unit is segregated into various sections that enable us to successfully proceed with all the stages of production. Backed by the dedication and commitment of an experienced workforce, we have earned the trust of a clientele that includes the likes of Reliance Industries Ltd., Hero Honda and Pantaloon Retail India Ltd.

Our expertise lies in implementing water-related projects right from Concept to Commissioning. This knowledge was imparted by **Mr. H.S Chauhan**, our CEO and Mentor. With rich experience in water/wastewater treatment, his domain knowledge helped us become a...
